

Heavy Duty Air Filter

Reduce Filter & Operating Costs

Specifications At A Glance:

- Air cleaner for moderate & moderate to heavy dust environment
- Up to 80 CFM air flow
- 10 LBS (4.54 KG)
- Automatic dust removal
- 72" Flexible hose

Benefits:

- High efficiency with less restricting air cleaner for moderate & moderate to heavy dust

Features:

- Light weight & compact design
- Easy installation and maintenance
- Automatic dust removal
- Pre-cleaner for longer filter life
- Horizontal application

Specifications:

Mounting Method:

- Bolts onto truck body or
- Equipment enclosure

Air Flow:

- Up to 80 CFM

Weight: (except air hose)

- 10 LBS

Dimensions: (except air hose)

- 12" (H) X 6" (W) X 14" (L)

Environment Application:

- A700136 - Moderate dust environment, typically industrial and off-road application (material handling and construction equipment)
- A700138 - Moderate to heavy dust environment, typically off-road applications (construction, mining and agriculture equipment)
